J&K Bank Reports Highest Pak's apex court suspends high court verdict denying Sunni Ittehad Council (SIC)

reserved seats

Islamabad, : In a relief to jailed former premier Imran Khan's party, Pakistan's Supreme Court on Monday suspended a high court verdict denying the Sunni Ittehad Council (SIC) reserved seats for women and minorities in the national and provincial

assemblies. The Peshawar High Court (PHC) had rejected a petition of the SIC, which came to the fore after Khan's Pakistan Tehreek-e-Insaf (PTI) backed independently elected lawmakers joined it, regarding its claim on reserved seats.

PTI was forced to take the cover of SIC because reserved seats are allotted to parties having members in the national and provincial assemblies. Since the PTI was deprived of its bat symbol before the election due to failure to hold intraparty elections as per law, it was not allowed to contest the February 8 general election as a party.

Election The Commission of Pakistan (ECP) in March ruled that

ECP decision was suspended to the extent of the remaining reserved seats given to other parties.

the Later, court adjourned the matter for hearing until June 3. Earlier, the SIC in its

petition said that the PTI candidates joined the SIC after their party lost its electoral symbol, adding that the ECP also raised no objections to the above independent returned candidates joining the SIC.

It contended that the fundamental premise of the proportional representation system for allocating reserved seats for women and non-Muslims, as outlined in Article 51(6)(d)(e) and Article 106(3)(c) of the Constitution, 1973, does not hinge on whether a political party submits can-

didate lists for reserved seats before the general election or whether the party contested the election.

Instead, the party asserted that the core constitutional basis for the right to reserved seats under the proportional representation system is determined by the "total number of general seats secured by each political party from the province concerned in the National Assembly" or the "total number of general seats secured by each political party in the provincial

the SIC was not entitled to claim quota for reserved seats as none of its members contested the election from the party platform and it also failed to provide a mandatory party list for reserved seats.

The ECP in March also decided to distribute the seats among other parliamentary parties but the PTI rejected the verdict as unconstitutional and petitioned against it in the PHC, which rejected the plea.

The SIC finally filed a petition before the apex court against the PHC judgment in April.

A three-member bench of the Supreme Court led by Justice Mansoor Ali Shah and comprising Justices Muhammad Ali Mazhar and Athar Minallah took up an SIC appeal against the PHC order.

After hearing arguments, the court suspended the decision by the PHC.

"We are accepting the case for hearing," Justice Shah said, adding that the PHC order upholding the federal level.

IAEA surveillance cameras have been disrupted, while Iran has barred some of the agency's most experienced inspectors.

Meanwhile, Iranian officials have increasingly threatened they could pursue atomic weapons.

'For us, making the atom-Grossi told an ic bomb is easier than not International Atomic Energy building atomic bomb," said Mahmoud Reza Aghamiri,

the chancellor of Tehran Shahid Beheshti University and a specialist in nuclear physics.

Iranian media quoted Aghamiri acknowledging Supreme Leader Iran's Ayatollah Ali Khamenei had previously said making an atomic bomb is forbidden.

"But if his fatwa and viewpoint is changed, we have ability to build atomic bomb, too," Aghamiri added. Aghamiri's comments follow a drumroll of others

by Iranian lawmakers, those in its paramilitary Revolutionary Guard and a former head of the Atomic Energy Organisation of Iran suggesting Tehran could build the bomb.

Iranian diplomats for years have pointed to Khamenei's preachings as a binding fatwa, or religious edict, that Iran wouldn't build an atomic bomb.

"We do not need nuclear bombs.

We have no intention of using a nuclear bomb," said Khamenei in a November 2006 speech, according to a transcript from his office. "We do not claim to dominate the world, like the Americans, we do not want to dominate the world by force and need a nuclear bomb. Our nuclear bomb and explosive power is our faith.' But such edicts aren't

written in stone. Khamenei's predecessor, Grand Ruhollah Ayatollah Khomeini, issued fatwas that revised his own earlier pronouncements after he took power following the 1979 Islamic Revolution. And anyone who would follow the 85year-old Khamenei as the country's supreme leader could make his own fatwas revising those previously issued

Israel's own nuclear weapons program, widely known by experts though never acknowledged by the country, didn't deter Iran's assault. And now experts increasingly suggest Iran could pursue the bomb itself after a major attack on it.
